

Living Cell Technologies Limited

ACN: 104 028 042
ASX: LCT
OTCQB: LVCLY

3 June 2022

Cleansing notice under Section 708A(5)(e) of the Corporations Act 2001 (Cth)

Living Cell Technologies Limited (ASX: LCT) (**Company**) would like to advise that the equity raise by way of Placement to professional and sophisticated investors raising in total approximately \$1.285 million by the issue of 257,000,000 fully paid ordinary shares has been completed today.

The Company gives notice under section 708A(5)(e) of the Corporations Act 2001 (Cth) (**Corporations Act**) that:

1. the Placement Shares were issued without disclosure to investors under Part 6D.2 of the Corporations Act;
2. as at the date of this notice the Company has complied with:
 - a. the provisions of Chapter 2M of the Corporations Act as they apply to the Company; and
 - b. section 674 of the Corporations Act; and
4. as at the date of this notice there is no information:
 - a. that has been excluded from a continuous disclosure notice in accordance with the Corporations Act and ASX Listing Rules; and
 - b. that investors and their professional advisers would reasonably require, and would reasonably expect to find in a disclosure document, for the purpose of making an informed assessment of:
 - i. the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; and
 - ii. the rights and liabilities attaching to the Placement Shares.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Mark Licciardo', with a horizontal line extending to the right.

Mark Licciardo
Company Secretary

About NTCELL

NTCELL is an alginate coated capsule containing clusters of neonatal porcine choroid plexus cells that are sourced from a unique herd of designated pathogen-free pigs bred from stock originally discovered in the remote sub-Antarctic Auckland Islands. Choroid plexus cells are naturally occurring 'support' cells for the brain and secrete cerebrospinal fluid (CSF), which contains a range of factors that support nerve cell functions and protective enzymes that are crucial for nerve growth and healthy functioning. In NTCELL, the porcine choroid plexus cells are coated with alginate to protect them from attack by the immune system. Therefore, no immunosuppressive regimen needs to be administered to recipients.

About Living Cell Technologies

Living Cell Technologies Limited (ASX: LCT) is an Australasian biotechnology company that is focused on discovering and developing novel treatments for debilitating conditions such as diabetes and Parkinson's disease.

LCT is listed on the Australian (ASX: LCT) and US (OTCQB: LVCLY) stock exchanges. The company is incorporated in Australia, with its operations based in Australia and New Zealand.

Forward-looking statements

This document may contain certain forward-looking statements, relating to LCT's business, which can be identified by the use of forward-looking terminology such as "promising," "probable", "plans," "anticipated," "will," "project," "believe," "forecast," "expected," "estimated," "targeting," "aiming," "set to," "potential," "seeking to," "goal," "could provide," "intends," "is being developed," "could be," "on track," or similar expressions, or by express or implied discussions regarding potential filings or marketing approvals, or potential future sales of product candidates. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results to be materially different from any future results, performance or achievements expressed or implied by such statements. There can be no assurance that any existing or future regulatory filings will satisfy the FDA's and other health authorities' requirements regarding any one or more product candidates, nor can there be any assurance that such product candidates will be approved by any health authorities for sale in any market or that they will reach any particular level of sales. In particular, management's expectations regarding the approval and commercialisation of the product candidates could be affected by, among other things, unexpected clinical trial results, including additional analysis of existing clinical data, and new clinical data; unexpected regulatory actions or delays, or government regulation generally; our ability to obtain or maintain patent or other proprietary intellectual property protection; competition in general; government, industry, and general public pricing pressures; and additional factors that involve significant risks and uncertainties about our products, product candidates, financial results and business prospects. Should one or more of these risks or uncertainties materialise, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein as anticipated, believed, estimated or expected. LCT is providing this information and does not assume any obligation to update any forward-looking statements contained in this document as a result of new information, future events or developments or otherwise.
